

Though the Baga—Calangute area has a lot to showcase, one cannot ignore the European themed hotel, CSM

Like touring Europe

Located at Cobra Vaddo, Baga is a track of about 800 metres that leads to a beach resort which gives you the feel that you are in some European country. The spotlessly clean tarred lane with white washed curved edged cottages on either sides each owning a minuscule home turf is a distinct feature that 'Colonia Santa Maria Hotel' (CSM) it offers. The resort with its picture post card beauty is located at the hub of Calangute Baga road and has 19 blocks consisting of 89 well furnished

rooms. For a guest on a holiday the view from a balcony is worth a thousand grants as it faces the sea. The our guest can sit and relax while watching the various colourful activities that are carried out on the seashore and on sea.

CSM's pool is small but all good things come in small packages, don't they? The pool area bustles with activities what with the hotel authorities conducting games like water polo etc for its guests. They also have dart boards and a football goal post at the pool

area. And if you aren't the sporty type, than just calm your senses in the water and laze about on a bed with a chilled drink to complete the definition of ultimate relaxation. CSM also has its own sand dune overlooking the sea that has been transformed into a private sun deck for the guests to sun bathe while burying themselves into some light novels.

The lobby is small but treasured with antique Portuguese wood furnishings, a snap shot of the owner of the resort, Prem Prakash shaking hands with the queen of England, Queen Elizabeth that is framed and proudly hung on one of the walls and of course a treasure of another kind—the smiling and gentle staff ready to help or lend a hand whenever you are in need of.
